ORDER

Case No. 1:08-mj-015

On October 8, 2008, the United States filed an Application for Extension of Time to Search Seized Electronic Device(s) and Storage Media. Therein it stated that ICDE and NDBCI computer forensic agents were unable to fully complete analysis of the seized electronic devices and media and only recently contacted the United State about their need for more time to complete their analysis. The court **GRANTS** the United States' application, finding its request for additional time was supported by good cause. Accordingly, the United States shall have an additional thirty (30) days from the date of its application to compete its search and analysis.

IT IS SO ORDERED.

Dated this 9th day of October, 2008.
